"The Custom Air Handling Solution"SM
1,000 to over 200,000 CFM

Why Custom-Air?

United Metal Products developed the Custom-Air line to meet the ever-increasing demand for custom air handling units. These heavy-duty welded frame units are available from 1,000 to over 200,000 CFM. They can be configured to meet almost any cooling or heating need from chilled water, DX to steam or gas heating.

Design Options

- Cabinets selected to 3" increments
- Single, dual, or triple fan sets
- Leak test available to 1% at 8" static pressure
- Filtration—all options
- Pitched roofs
- Galvanized, stainless steel, or aluminum construction

- ETL labeling available
- Single point power
- Powder coating

Applications

United Metal Products' custom air handling units are well suited for the following applications:

- Airports
- Call centers
- Convention centers
- Casinos
- Offices
- Clean rooms
- Schools
- Factories
- Theaters
- Hospitals
- Kitchens
- Prisons
